EDUCATION

Symbiosis Institute of Technology **Aug 2024 – May 2028**
B.Tech Computer Engineering - Data Science and Engineering *Nagpur, India*

COURSEWORK / SKILLS

- Data Science
- Data Mining
- Data Warehousing
- Data Analytics
- Java
- Python
- Data Warehouse
- DSA
- PL/SQL
- HTML/CSS
- Java Script
- Backend Development
- Frontend Development
- Fullstack Development
- Node.js
- NumPy
- React.js
- MongoDB
- Pandas (Python)
- Tailwind CSS

PROJECTS

Patient Data Management System Using Blockchain | Python, HTML/CSS, SQL, Hashing **March 2025**

- Developed a blockchain-integrated patient record system ensuring immutable and verifiable medical data storage.
- Implemented secure authentication with hashed passwords and session management, reducing unauthorized access risks.
- Designed a scalable architecture separating database storage and blockchain hash verification, simulating real-world healthcare compliance systems.
- Live Project Link

Order Management System Using Salesforce | Salesforce **Dec 2025**

- Worked with Salesforce Order Management to manage end-to-end order lifecycle including order processing, fulfillment tracking, and returns management.
- Live Project Link (steps)

Antispoofing and Real Time Interview Analysis System | Python, OpenCV, MediaPipe **July 2025**

- Designed and implemented a real-time interview monitoring system with anti-spoofing mechanisms including liveness detection, facial recognition, and behavioral analysis to enhance online interview security.

INTERNSHIP

Vodafone Idea Foundation's VOIS **10 Mar 2026 – 05 Apr 2026**
Cyber Security Intern *Nagpur, India*

- Applied cybersecurity best practices and assisted with security assessments and remediation for pilot projects.

Kalika Technological Systems Pvt. Ltd. **20 May 2026 – 04 Jul 2026**
Software Intern *Nagpur, India*

- Contributed to full-stack development tasks, implemented features and fixed bugs in production codebases.

TECHNICAL SKILLS

Languages: Python, Java, HTML/CSS, C,Java Script
BI & Visualization Tools: Power BI, Tableau, Oracle BI
Cloud Platforms: Microsoft Azure, Salesforce
Databases & Querying: Oracle, SQL, MySQL
Data Technologies: ETL, Data Modeling, Data Warehousing
Developer Tools: VS Code, Git

CERTIFICATIONS

- Google Data Analytics - Coursera
- Build a computer vision app with Azure Cognitive Services - Coursera
- Python Programming with Red Hat
- Google AI Fundamentals, Introduction to Data Analysis Using Python, Infosys Springboard
